

SLIDE®

SOLUTIONS FOR SUCCESS

MOLD RELEASES • PURGING COMPOUNDS • RUST PREVENTIVES • CLEANERS • LUBRICANTS

Mold Releases

TSOT carries many types of mold releases. Slide mold releases are available in light-duty, medium-duty, heavy-duty, water-based, and thermoset mold releases. There is a mold release for every application, so inquire with TST for the mold release you need.

Rust Preventives

TSOT carries several types of rust preventives. These rust preventives reduce moisture on your machine, resulting in longer life for your equipment. There are 4 types of rust preventives, depending on your needs.

TO ORDER CALL:

(281) 351-HEAT (4328)

Lubricants

TSOT has 3 types of lubricants: Super Grease for injection molds, Silicone spray for machine parts and Econo-Spray® Pin Lube & Grease for knockout pins.

Cleaners

TSOT carries many types of cleaners for many applications. Some of these include PC polish cleaner, mold & metal wipes, plastic cleaner, quick mold cleaner and silicone remover.

Purging Compounds

For quick purging, use the P.D.Q.® It works quickly to remove all thermoplastics.
